GHOST FACTORY

Stake your Dreams!

White Paper V.1

May, 2022

Dedicated Platform

Ghost Factory White Paper:

Your Dreams, Your NFT!

Disclaimer:

This white paper does not constitute a prospectus or financial service offering document and is not an offer to sell or solicitation of an offer to buy any security, investment products, regulated products or financial instruments in any jurisdiction.

Idea:

NFTs are usually associated with non-physical art but in reality, there are several different types of NFTs as following:

- Collectible items
- Artwork
- Event tickets
- Music and media
- Gaming
- Big Sports Moments
- Virtual Fashion
- Real-world assets
- Memes
- Domain names

Ghost Factory idea came to my mind by complicated night dreams, including my nightmares in a surreal context.

There are 5 main types of dreams:

- Normal Dreams
- Daydreams,
- Lucid dreams,
- False awakening dreams
- Nightmares

Could I Change Surreal Dreams into NFT?

Create your NFT: Dedicated just for your DREAMS!

Ghost Factory provides you a platform to invest in your dreams. Our Innovative platform support you from NFT creation on surreal content and sell them on market place to NFT staking by creation a surreal world full of your night dreams. Mint NFT creations, including dream books, digital art or movies.

To create NFT you need to [write, design and submit](#) your artwork. Write and design short story about your any dreams in your life including your night dreams, respect the dream content, Ghost Factory is [dedicated for dreams](#) and any [other NFT types \(Music, pure artworks,...\)](#) will [be deleted](#) by admins of NFT market place.

Remember your night Dream, Write and Design it, Covert to an artwork and Submit as NFT. A collection of Nightdreams would be called **Dream Book**.

Create your NFT Dream

Ghost Factory KYC:

Professional buyers consider real ownership and copy write of submitted NFTs, so seller can apply for 3 Categories:

Blue: basic KYC and simple way for an exchange to identify Creators, but it doesn't go into much detail about the customer's identity or relevant information. NFT should be approved in the same way.

Double Blue: Much more in-depth verification that includes detailed identification documents such as passports and utility bills.

Invest in Your Dreams!

NFT Staking: Stake and earn yield on our decentralized NFT Market place

NFT staking refers to locking up non-fungible tokens on a platform or protocol in exchange for staking rewards and other benefits. Staking NFTs allows holders to earn an income from their collection while maintaining ownership.

Staking NFTs on Ghost Factory Platform in exchange for staking rewards and other benefits is known as our Dream staking. Staking NFTs allows you to profit from your collection while keeping control of it. Finally, it opens up a new way for collectors to profit from your NFT collections. the largest advantage of NFT staking is that you don't have to transfer ownership or sell your NFT collection.

Staking NFTs allows players to earn money through **Ghost Factory Token (GFR token)** Yield is paid out in the form of GFR tokens. The main advantage of Ghost Factory staking platform development is that the platform would provide rewards based on the Dreams NFT being staked, **Random airdrops** can be claimed, the platform is a regular revenue generator and also an option to earn incentives, and the platform creates trust with the utmost transparency.

GFR Value:

1. Minting: Dreams NFT can be minted only by GFR tokens
2. Staking: Only NFTs of blue tick holders (verified members) can be staked to earn GFR token and the earned GFR is issued in epochs of 7 days. Any unstaking before 7 days after staking would be burned accordingly.
3. Vote and Earn: Voting system verified only by phone numbers would be considered as extra rewards for Listed NFTs.
4. List and Stake: There is no limitation for listing in Market place nevertheless staking needs to be at least blue tick holder (KYC verified).

Royalty

1. NFT royalties are a pre-programmed percentage of sale prices that get forwarded to the crypto wallet of the original creator. Whether it's the first, second, or hundredth sale, the creator will be issued their cut of the sale in perpetuity without having chase payments.
2. NFT royalties rely on smart contracts to function. When an NFT is minted, the governing smart contract is programmed with the royalty terms, including the original creator's crypto wallet address and the amount.
3. Ghost Factory Marketplace allows creators to collect royalties between 0-10%. For example; 10% royalty fee from a 2 BNB sale, would see the original creator issued a 0.2 BNB payment automatically.

Your Dream NFT journey starts here:

1. Create your NFT on Platform or purchase a Dream NFT
2. Sell or Buy your Dream NFT on our Dedicated NFT market place.
3. Register profile or NFT in Platform, register to get more benefit of project such as staking
4. Dream NFT staking: Publishing Royalties pool

Milestones:

Phase 1

- A) Website and White Paper launch
- B) Tokens Lock
- C) Launch and IDO
- D) Launch on BSC chain

Phase 2

- A) List in Coin Gecko
- B) List in Coin Market Cap
- C) Increase the follower, member and community
- D) Public sales

Phase 3

- A) Staking pool
- B) Collector DAO
- C) App Launch
- D) NFT Market Place
- E) Distribution of NFT and Airdrop committed in Phase one

Phase 4

- A) IOS and Android Development
- B) Super large community
- C) 24/7 Voice support

Phase 5

- A) Reaching High Market Cap
- B) More technical development
- C) Play to Earn Game

GFR Token:

GFR is governance token of Ghost Factory. GFR token is used for:

- Trading
- Payment in Market Place
- Rewards

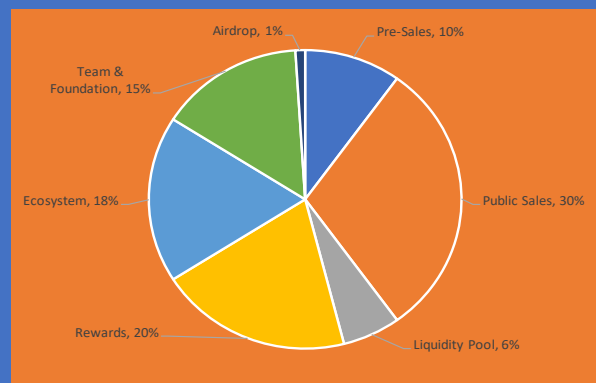

Token Name & Symbol: Ghost Factory Token(GFR) 0x2FA3C7e81EA8ac617F2Aea97e94AAd88E07507F3 issued on Binance Smart Chain (BEP20).

The total supply 2,500,000,000
